Constructions at the heart of **SAIE BARI**

SAIE BARI 2021 is reinventing itself, placing the construction system at the heart of the event, as confirmation of its role as a veritable commercial, training and information nexus for professionals of the entire sector. This second edition has evolved in response to new requirements of professionals who design and carry out construction and installation works. Visitors of SAIE BARI will find all technological innovations in a single event, along with the most evolved materials and useful solutions for satisfying requirements established by new construction and management techniques.

SAIE BARI 2021

Competence. An event which can count on a database of over 260,000 professionals active in the sector, profiled, built and updated to involve all the important professionals working in South Italy market.

Evolution. An event which tackles all changes in regulations and market trends, giving visibility to products, services and technologies which contribute towards innovation in the sector.

Supply Chain. A single event promoting the entire construction chain: from design to production, maintenance and management. An all-round event for the proposal of residential, industrial and tertiary sector construction; for the design of private and public works; for infrastructure facilities and everything regarding built environments.

Business. Reference point for companies presenting products, methods and tools to make the sector safer, more efficient, collaborative, profitable and sustainable.

Direct contact. An occasion to acquire hands-on knowledge of "Italian know how", an immersive experience for visitors and direct contact with innovative products and technologies.

Internationalisation. SAIE BARI encourages meetings with foreign and international buyers, thanks to its intense matching programme.

Networking. Collaboration with major associations and professional registers has resulted in a rich calendar of events and training opportunities, further enriching contents available to visitors.

Innovation, the heart of **SAIE BARI 2021**

There will be extensive coverage of Innovation and starting from the Services Hub, the venue of SAIE Eccellenze, reaching out to all Sectors at the event, transforming it into a veritable Innovation Laboratory.

Sector Macro-products

Design and Digitalisation

- Design, control and management software
- BIM, Building Information Modelling
- Instruments for surveying and measurement, drones, geospatial technologies
- Augmented reality, instruments, systems and applications
- 3D printers, Digital manufacturing, digital platforms

Construction

- Building materials and technologies
- Industrialised facilities and systems
- Finishings and internal partitions
- Waterproofing, chemicals for construction
- Insulation and finishing systems for outdoor environments
- Outer shells, doors and windows
- Flooring, cladding and bathroom fixtures
- Land reinforcement
- Earth moving and lifting vehicles
- Drilling and tunnelling
- Work site equipment and products

Plants

- Electric systems for buildings
- Remote building control
- Ventilation, air conditioning and heating systems
- Lighting systems
- Solar, photovoltaic and energy production installations
- Automation, access control systems, anti-burglary systems
- Digital Buildings, Smart Homes and Digital Cities
- Installations for sports and outdoor facilities
- Smart infrastructures
- Fire-fighting plants and systems

Services and Media

- Consultancy services (professional, technical, financial)
- Design, engineering and architecture firms
- Building maintenance and administration
- Associations
- Technical and media publications

Advantages for the exhibitor

4 reasons to be a part of SAIE BARI 2021

1. Involve, inform and network with operators actively seeking innovative technologies and safety solutions for the land, for energy requalification, the design, construction and excellent maintenance of built assets
2. Opportunity to present case studies and best practices in Areas of Excellence, Arenas, Squares, also through different forms of partnerships
3. Help SAIE BARI visitors understand and implement new legislative provisions of the Tender Code and the Decree on the implementation of safety measures of buildings at seismic risk, to leverage financial opportunities of the "Eco and Sisma Bonus" funds
4. Opportunity to present latest developments, emerging systems and technologies showcased at the Services Hub dedicated to Built Environment Innovation

The exhibition in numbers: 2019

20.000	Square metres
350	Exhibiting companies
20.137	Visitors
12	Special initiatives

Event directory

15.000
Free copies
to visitors

Types of visiting companies:

You will find

Design/ Engineering
Construction Company
Specialized Company/Installation
Specialised Consultancy
Purchasing/Developer/Buyer/
Condominium Management services
Distribution/Resale/
Manufacturing Companies
Education
Institutions / Association

SAIE BARI 2021 gives a voice to:

All the sector's finest, showcasing the entire chain, from design to construction, a generator of sheer excellence offered to national and international professionals, with particular regard for the key issues of recovery, seismic safety, sustainability, digitalisation, infrastructures and land protection

Companies which combine tradition and quality which are rethinking their products for an evolving market

Companies which are testing and working on new systems, technologies, services and distribution networks opening out towards a new era of industrialisation for 4.0 constructions

Companies dedicated to digitalisation: from BIM to Digital Manufacturing, augmented reality, robots and 3D printing for the industrialisation of processes, from geospatial to drones and 3D surveying, from IOT to cognitive buildings

Producers of work site machinery and technologies, which are transforming work places, also in connected, digital and safe, areas

Service companies providing consultancy for increasing the efficiency and rationalising supply chain processes, towards a 4.0 construction sector

Designers, Research Centres, Universities and **start-ups** dedicated to designing excellence, innovation and qualifying the built

Advertisement planning

All major communication channels will be used, including specialised magazines, professional profiles, DEMs, newsletters, social networks, conventions, road shows, daily newspapers, radio, in addition to collaboration with Gruppo Tecniche Nuove and the magazines Arketipo, Area, CIL Costruire in Laterizio, Imprese Edili, Commercio Edile, Macchine Edili, Serramenti Design e Componenti, Commercio Idrotermosanitario, RCI, GT, ZeroSottoZerro, Luce&Design, L'impianto Elettrico, Elettro, Sicurezza, Watt Elettroforniture, Ristrutturare la casa, Ambiente e Sicurezza, 01 Building.

RAW SPACE

Fit-out to be carried out by the exhibitor. RAW SPACE IN PAVILION

Solutions for companies with their own booth, starting from 16sqm € 110,00 per sqm

AVAILABLE SIZES : 16/20 sqm with 1 free side • 24/32 sqm with 2 free sides • from 48/64 m2 with 3 free sides
